---

#### Introductions and Opening Comments & Scheduling- Charlie Gabriel

Charlie inquired when we could get all the details buttoned up. Please give me a date when we can get started on installations. Jan Blair stated the week of March 9<sup>th</sup> he will get an answer to

Charlie. Charlie inquired if we will start with OCSO first? OCSO said that they need at least a week notice and would provide that information to Sean Sparks and Scott McInnis. Jan Blair added that United Radio is getting the code plugs. Jan also stated that he is getting sample portable radios so that you can check the template on them.

### **United Radio, Kevin Pooley**

Said he needs a definition of conventional channel for Emergency Management (where do I put them) to make sure they are programmed correctly the first time. Charlie said if you have any questions you should go to the Team Lead.

### **Scan List – Jan Blair**

Talk back scan is the talk group when your radio is idle that you wish to listen to. Each agency should program your own radios the way you want them. Kevin Pooley said they will put a scan list in to begin with and each agency can change/update it to fit their needs. Any questions? None.

Charlie Gabriel requested a break out session after this meeting with Sean Sparks, Scott McInnis, Aaron Boone, Jan Blair and Chick Langone.
